The interiors of older homes and apartments offen have layers of lead-based paint on the walls, ocilings, window alls, doors and door framer. Lead-based paint and primers may also have been used on ourside porcher, railings, garages, fire excepts and lamp posts. When the paint chips, flakes or pects off, there may be a real danger for babics and young children. Childten may cat paint chips or chew on painted milings, window sills or other items when parents are not around. Children can also ingest lead even if they do not specifically est point chips. For example, when children play in an area. where there are loose paint chips or that particles containing lead, they may get these puricles on their hands, put their hands into their mouths, and ingest a dangerous amount of lead.

Has your child been especially cranky or irrizabie? Is he or she caning normally? Does your child have stomacheches and vocating? Does he or she complain about headaches? Is your child unwilling to play? These may be signs of lead possessing. Many times though, there are no symptoms at all. Because there are no symptoms does not mean that you should not be concerned if you believe your child has been exposed to lead-based paint.

Advisability and Availability of Blood Lead Level Screening

If you suspect that your child has cases chips of paint or someone told you this, you should take your child to the docure or clinic for tening. If the test shows that your child has an elevated blood lead level, treatment is available. Contact your docur or local health department for help or more information. You can avoid lead-based paint poisoning by performing some preventive maintenance. Look at your walls, ceilings, doors, door frames and window alls. Are there places where the paint is pecting, flaking, chipping, or powdering? If so, there are some things you can do immediately to protect your child:

- (a) Cover all furniture and appliances;
- (b) Get a broom or stiff brush and remove all loose pieces of paint from walls, woodwork, window wells and ceilings;
- (c) Sweep up all pieces of paint and plaster and put them in a paper bag or wrap them in acwopliper. Put these packages in the trash cas. DO NOT BURN THEM:
- (d) Do not leave paint chips on the floor in window wells. Dump mop floors and window silk in and around the work area to remove all that and paint particles. Keeping these areas clear of paint chips, dust and dirt is easy and very important; and
- (e) Do not allow loose paint to remain within your children's reach since children may pick loose paint off the lower part of the walls.

Homeowner Maintenance and Treatment of Lend-Bessel Paint Hazards

As a homeowner, you should take the necessary steps to keep your home in good shape. Water leaks from faulty plumbing, defective roofs and exterior holes or breaks may admit rain and dampeess into the interior of your home.
