Prior to the commencement of construction, all land-disturbing activities equal to or greater than one acre, or less than one acre and part of a larger common plan of development or sale, must register for coverage under the General VPDES Permit for Discharges of Stormwater from Construction Activities (VAR10). If not already submitted, a copy of the General Permit registration statement can be obtained from DEQ's website at the following location:

DEQ acknowledges the receipt of the draft Stormwater Management Inspection & Maintenance Agreement for this project. Comments on this agreement will be provided under separate cover. Please note that the recordation of this agreement in the local land records will be required prior to submitting a Notice of Termination under the General Permit.
