

## SEC. 30-41. - R-1 LOW DENSITY RESIDENTIAL DISTRICT.

## Sec. 30-41-1. - Purpose.

(A) The R-1, low density residential district is established for areas of the county within the urban service area with existing low-middle density residential development, with an average density of from one (1) to three (3) units per acre, and land which appears appropriate for such development. These areas are generally consistent with the neighborhood conservation land use category as recommended in the comprehensive plan. In addition, where surrounding development and the level of public services warrant, these areas coincide with the development category recommended in the plan. This district is intended to provide the highest degree of protection from potentially incompatible uses and residential development of a significantly different density, size, or scale, in order to maintain the health, safety, appearance and overall quality of life of existing and future neighborhoods. In addition to single-family residences, only uses of a community nature which are generally deemed compatible are permitted in this district. This would include parks and playgrounds, schools and other similar neighborhood activities.
