

SEC. 30-34. - AR AGRICULTURAL/RESIDENTIAL DISTRICT.

Sec. 30-34-1. - Purpose.

- (A) These areas are generally characterized by very low density residential and institutional uses mixed with smaller parcels that have historically contained agricultural uses, forest land and open space outside the urban service area. These areas provide an opportunity for rural living in convenient proximity to urban services and employment. Agricultural uses should be encouraged to be maintained. Over time, however, these areas are expected to become increasingly residential in character, with residential development becoming the dominant use over agricultural and more rural type uses. The purpose of this district, consistent with the Rural Village land use category in the comprehensive plan, is to maintain these areas essentially in their rural state, consistent with the level of services anticipated by the county. These areas are generally suitable for low density residential development and other compatible land uses.
