**Thank you** for participating in the AT Passport program. Enclosed is your custom stamp and ink pad. We offer a few tips to help make the process work smoothly:

- Have some **extra paper** on hand so hikers can test the stamp and be certain it is properly loaded with ink.
- Keep the ink pad lid closed when not in use. This is a special “archival” ink that is very water resistant and should hold up to the damp weather on the trail.
- Please inform others working at your establishment the stamper location.
- If the stamper station is unattended consider installing a lightweight chain to secure it.
- If asked about other stamping locations, there is an up-to-date list on our website. Also, AWOL’s AT Guide has icons identifying stamping locations.

If hikers ask, the AT Passport can be purchased on our website [www.ATPassport.com](http://www.ATPassport.com)

If you have question regarding the AT Passport email us at [TrailPassport@gmail.com](mailto:TrailPassport@gmail.com)

Have a memorable season !!!!
